PRODUCT CHANGE / END OF LIFE NOTICE

April 29, 2019

Dear Valued Customer,

The Alpha Wire portfolio requires regular review to ensure our products continue to offer the most updated features and benefits, in addition to the highest quality.

Effective immediately, all sizes, colors, and put-ups of the FIT-295 series have entered their End-of-Life (EoL). As part of our regular product life cycle management activities, a lack of demand was identified which resulted in a product that was no longer cost effective to manufacture. The items will be available until our current stock is sold, at which point they will be offered as special part number with a 5,000 ft. to 32,000 ft. minimum order quantity.

Should you have any questions, please feel free to contact your Alpha Wire representative or channel partner.

Sincerely,

Julian Del Campo
Product Manager
Alpha Wire
