Number: #121
By: D. Warren, Applications Engineering Dept.
Date: June 24, 2013

PCA.0E/PSA.0E Now with Anti-Rotation – PCP.0E becomes Obsolete

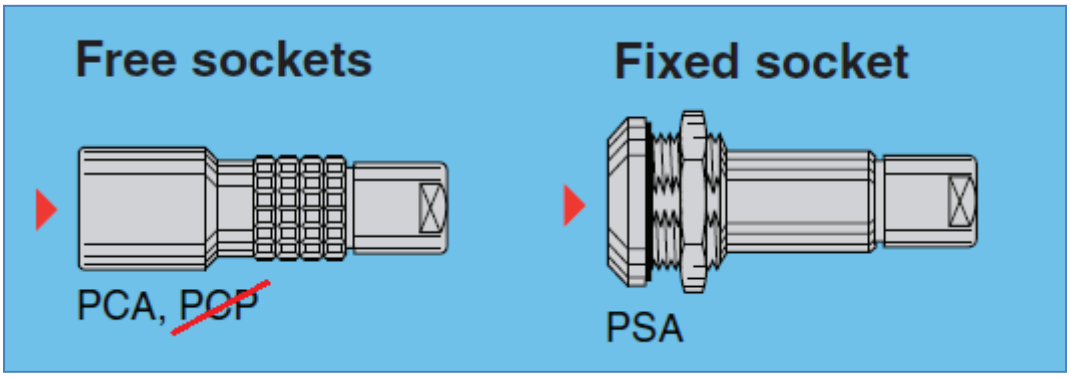

Summary of Changes:

- The inner pieces of the **0E Series** will have a system of keyed components for enhanced anti-rotation characteristics. Anti-rotation models such as the PCP will be phased out and become standard with PCA and PSA models.

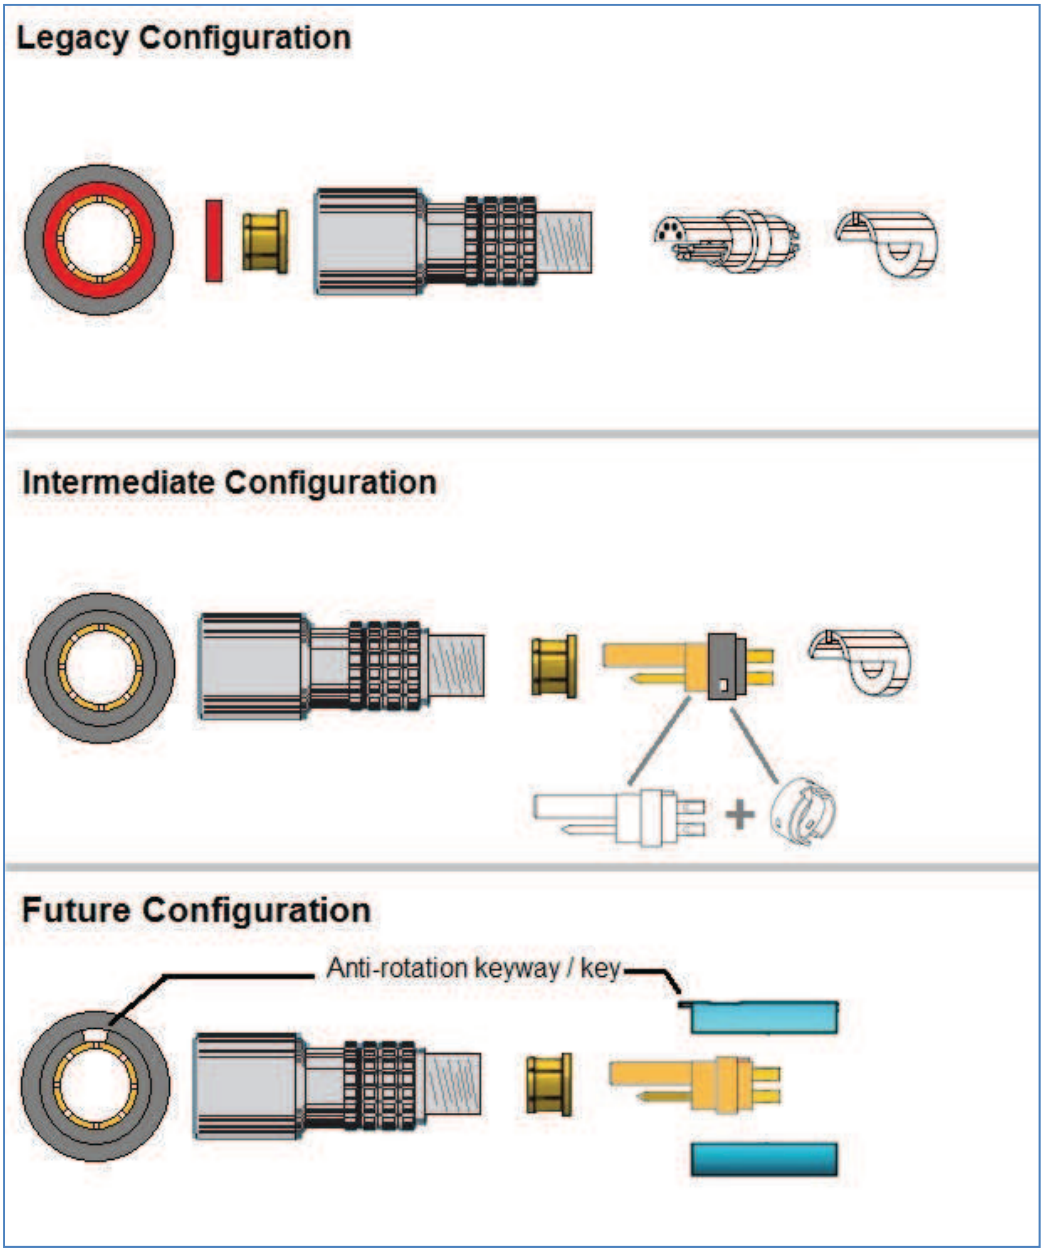

- There will be a keyway added to the inside of the receptacle. The new keyway will take advantage of the new inserts and keyed split mid-pieces which will have keys similar to the B Series. The collets will also have a keyway to align with the split mid-pieces.

Previous Product Bulletin associated is: #88

Products affected:

Details of Change:

Effective Date:
This modification is currently in process and the new version product will be shipping after old version inventory is depleted.

If you would like a sample of the new version please contact your local LEMO Representative or your Customer Account Specialist.

If you have any questions or concerns regarding this change, please contact Customer Service or Applications Engineering at 1-800-444-5366 or email: info@lemousa.com

Thank you for your continued support of LEMO products!
