We would like to inform you about the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

### GENERAL PRODUCT DESCRIPTION:

MAG-MATE Terminal

### DESCRIPTION OF CHANGE:

CHANGE BRASS MATERIAL GRADE FROM C26000 TO C27400.

### REASON FOR CHANGE:

Product Improvement. New specification. In an effort to standardize raw material on a global basis, TE Connectivity has completed a review of our current material standards for Brass connectors. This review has resulted in our decision to reduce the number of regional alloys and align at the global level by standardizing on C27400 alloy. Material certification will be supplied, by part number, upon request. Test data shows no reduction in performance and is available upon request. Requests for test documentation should be made to your local TE Connectivity Sales Engineer.
