Overview

- All Phase 3 Modjack parts (series 44050/44150/44560/44661/44170/44520) will have a new terminal plating process. The new plating will have gold flash in the initial contact area with a nickel under plating, and 50u gold in the contact area with nickel under plating vs the current process which has nickel in the initial contact area, and 50u gold with nickel under plating in the contact resting area. The only impact is a slight visual difference to the terminal plating, otherwise form, fit, and function are unchanged.
- Product Impact
 - There are not impacts to form, fit or function
- Part Number Impact
 - All parts in series 44050/44150/44560/44661/44170/44520
- PPAP and samples available upon request
