TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

1.USB 4P VERTICAL TYPE B RECEPTACLE CONN 2.SHELL, RECEPTACLE, 4 POSN, VERTICAL, TYPE B, UNIVERSAL SERIAL BUS

Description of Changes

modification for the shell spring design

Reason for Changes:

Product Improvement. 1.We received complaints from our customers that the extraction force of the product was too large. The spring clips of the connector were pulled out. The main reason was that after we replaced the shell material from copper alloy to stainless steel, the spring fillet could not reach the level as before. 2.We change the spring design, which can make the fillet corner larger, and can accommodate plugs' difference. 3.we had finished the durability test,the result can meet the specification.
