Updates to 3M™ Heat Shrink Product Line

Dear Valued Customer:

In order to improve manufacturing efficiency and better serve you, we are making some changes to our single-wall heat shrink product portfolio. This includes impact to the 3M™ FP-301, FP-301VW, and VFP-876 tubing product families.

Here is a high-level summary of changes to these 3M™ Heat Shrink Tubing product families.

- **FP-301 Tubing** – All currently offered diameters and colors in spools, 4-ft sticks and 6-inch pieces will remain available. Some packaging configurations will be discontinued.
- **FP-301VW Tubing** – All currently offered diameters will remain available. Only the black color in spool configuration will remain available.
- **VFP-876 Tubing** – This product family will be discontinued. This product family carries the same SAE AS23053™ qualification as 3M FP-301 tubing. All replacement products will be from the 3M FP-301 tubing product family.

Appendix A is a more detailed overview of the changes by product family.

Appendix B is a list of products that will be discontinued and the corresponding replacement product. Please note that the replacement product will be the most similar product currently available and have the same SAE AS23053 qualification as the discontinued product.

The last day to place an order for these products is January 5, 2019. Orders will be fulfilled while supplies last.

For questions about this or other 3M electrical products, please contact 3M Customer Service at (800) 676-8381.

Sincerely,

Craig Goldberg
