PRODUCT UPDATE

Written by | Applications Engineer | June 10, 2019 | #211

Grounding Tag Modification for ERN.1B with PCB Contacts

Summary:

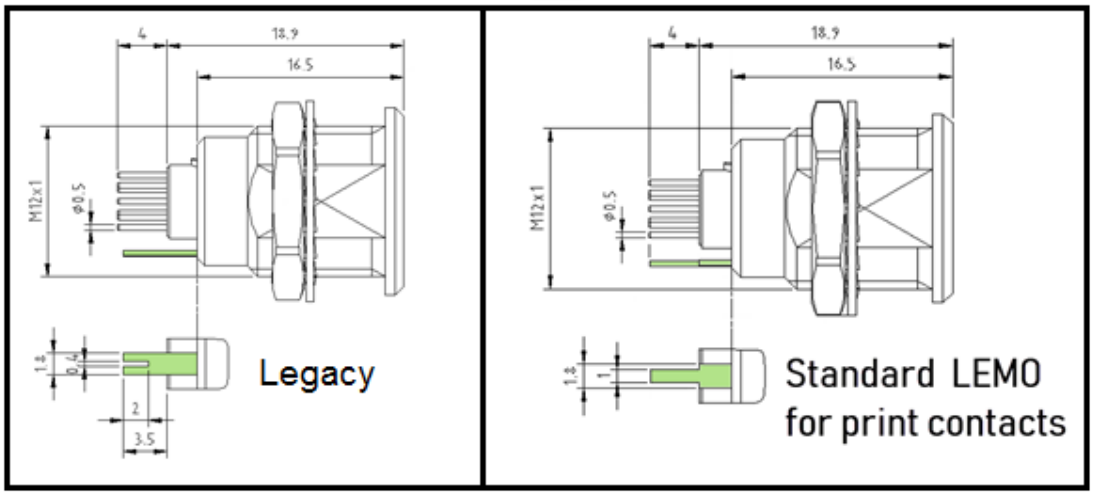

The grounding tag for the ERN.1B models with PCB contacts has been modified.

Details:

In order to standardize the product line, the grounding tag for PCB contacts will now be supplied with a stinger tag rather than a slotted tag. The slotted tag will be used for solder bucket and crimp terminations, and the stinger tag for PCB terminations.

The part numbers will remain the same.

ERN.1B.3__.GLN

Dimensions in millimeters

Timing of change:

The modified grounding tags for ERN.1B models with PCB contacts will begin shipping for any new orders.

If you have any questions or concerns regarding this change, please contact Customer Service or Applications Engineering at 1-800-444-5366 or email: info-us@lemo.com. Thank you for your continued support of LEMO products!
