

Product Quality Inspection Site Relocation in China

JAE will change the final quality inspection site for the connector series below from Wuxi to Wujiang, both in China. This relocation will happen for all production starting April 1, 2021. The same tooling will be used and there will be no changes to connector form, fit, or function. Please see details below.

2. Relocation

Component manufacturing was previously handled at Wujiang, but quality inspection was handled at a sister facility before shipping. Quality inspection will now also be handled at Wujiang.

3. Scheduled Relocation

- Quality inspection in Wujiang will start April 1, 2021.
- Please consult your JAE account representative for information on the specific lot numbers for each series and where they are inspected if necessary.

If you have any questions regarding this matter, please contact your JAE account manager.

Thank you for your cooperation.
