Planned Implementation Date	September 30, 2021		
Method of Identifying Change	Special marking on the product or packaging		

RELEASED

Before Change

Overview

- The purpose of this letter is to change the resin material from SABIC's resin to LG Chemical's resin in order to overcome the current resin shortage issue of Molex Korea. Implementation is only for Korean products.
- This change is to ensure continuity of supply for customers.

Current Supplier	Raw Material	Molex Product P/N
	PBT, Unfilled, L94V-0, Natural	51021 series

Part Number Impact

- Please refer attached impacted part list.
- Impacted parts produced using Molex Korea parts are included.
- Customer part list may include different series of items other than above which may manufacture in other Molex entities.

After Change

After Change

Alternative Supplier	Raw Material	Molex Product P/N
	PBT, Unfilled, UL94V-0, Natural	51021 series

- As a result of quality reliability, we confirmed that resin characteristics are the same when comparing existing and alternative suppliers.
- There will be changes to specifications and drawings.
- Qualification Reports and sample**
 - Samples are available upon request. We have the qualification report and testing completed on parts from new supplier.
- Identification** : Replace "M" to the end of the lot trace number on the carton label to identify products made from alternative materials. (Reel, inner box and plastic bag also)

Product Change Notification (PCN)
