Product Change Notification

PCN #: 20210903-01

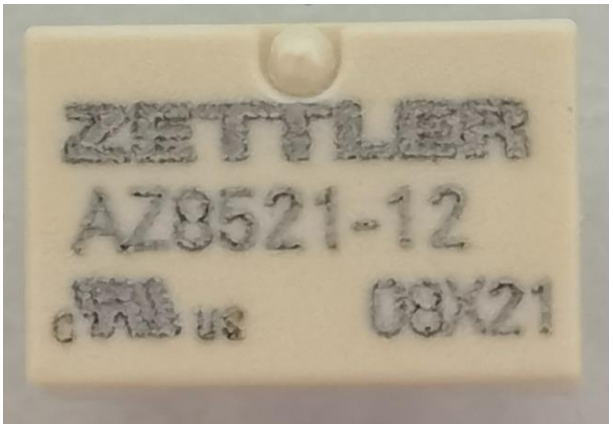

Change Title: AZ8521 housing material change

Products Affected: AZ8521 THT versions. AZ8521 SMT versions are not affected

Time schedule:
Starting from November 2021

Reason for change:
Avoidance of problems in the raw material supply chain.

Detailed description:
In order to offer the best delivery times and high-quality service, with this modification we are trying to reduce the risk of the raw material supply chain. The plastic material of the housing is changed from PBT plastics to higher performance LCP plastics, which is used in high volumes in the factory.
The modification does not affect the electrical performance and ratings of the components. Safety certifications are not affected. There is a slight difference in the color of the LCP material.

Before change:	**After change:**
	
Cover material: PBT Color appearance: white	Cover material: LCP Color appearance: white (slightly beige)

Additional support documentation:
none
