### Molex Products with TORAY Resins

To Our Valued Customers,

Recently, Toray Industries, Inc. issued a statement advising that certain resin products were improperly identified by Toray as having received certification from Underwriters Laboratories (UL). The link to Toray’s announcement is included below for your reference.

<https://www.toray.com/global/news/details/20220131151731.html>

Following Toray’s announcement, Molex’s global quality, purchasing and engineering teams have engaged directly with both Toray and UL. We remain focused on identifying and addressing any potential impact of Toray’s announcement to our products.

We have received updated details from Toray regarding fifty-five (55) impacted resins with UL certification supplied to Molex. The details provided are classified in the following manner:

- Category 0 = Revocation of UL Certification effective 3/31/2022
- Category 1 = Flame Retardant Performance Under Review
- Category 2 = Evaluation in progress

#### **Impact to Molex end products:**

- Products classified in Category 0 or Category 1:
  - Immediately moved to **“Stop Ship”** status effective **March 8, 2022**
    - Current and new orders will be blocked from entry and shipment
  - Molex will immediately contact impacted customers to review and select a solution that meets the needs of our customer’s product and end application.
- Products classified in Category 2 will continue to ship per customer orders.
  - Currently, UL’s certification of Toray’s identified resins in these categories remain active and unchanged

Category	Definition	# of Resins	Status
0	UL Certification Revocation	3	<b>Stop Ship effective 3/8/2022</b> - Notify impacted customers, review/initiate mitigation options
1	Flame Retardant Performance Under Review	11	<b>Stop Ship effective 3/8/2022</b> - Notify impacted customers, review/initiate mitigation options
2	Under Evaluation	41	<b>Continue shipping</b> - Pending final UL verification
Total		55	

**Alternative resins:**

- We are currently investigating alternative resins for all categories.

If you have further questions or require additional details regarding your specific products impacted by Toray's announcement, please contact your Customer Service Representative or Molex Sales Engineer. General inquiries may be directed to [bcp@molex.com](mailto:bcp@molex.com).

Sincerely,

Liam Buckley
