Business Unit: Electric **PCN/21/031/C+N**

Product range: Han / Schirmbügel Griffbleche **Date:** 2021-11-23

Author: Thomas Gieschke

Title: **Change of Han® Snap-in Grip Frame Size 6B, 10 B - External**

Details of Product Changes

1. Concerned part number (see also attachment):

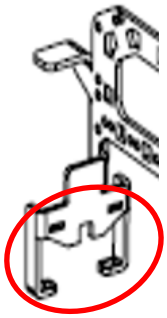

We hereby inform you about a change of the Han® Snap-in grip frames
09 00 006 5610 (Size 6B) and
09 00 010 5610 (Size 10B).

2. Description of changes / news:

The inner dimensions of both grip frames are too small for the Han-Modular® hinged frames. This can only be achieved, as with the 32B grip frame, by turning the retaining brackets (lugs) by 90°. The connection is then made from the outside. The contact insert holders are latched in the same place as before.

3. Impact on product specification:

Due to the necessary design adjustment, the width is now 39.5 mm instead of 34 mm.

4. Scheduled date of implementation:

2022-06-30

5. Identification of change:

- New revision level RevStd 2

6. Data sheet (optional):

- TB Drawings
