CommScope Category 3 Apparatus & Cable

Global

CommScope is announcing the discontinuation of its Category 3 Copper apparatus & cable solution. Category 3 has declined in market volume and has been overtaken by Category 5e in its place, which is fully backwards compatible with Category 3 systems. Category 5e solutions continue to be deployed globally, and CommScope will support Category 5e (4 pair and higher pair counts) where Category 3 is requested. Customers can expect improved lead times with the conversion to Cat 5e products.

The last day to place orders will be August 31, 2022.

Cat3 SL Jacks
