- Molex Malaysia Part Number(s) Affected: Refer to attached for the impacted parts
- Product Impact
 - This change is to ensure continuity of supply for customers, Molex is adding a second source for the resin for our Project Unity housings. The new resin option is a PCT, just as the existing resin. The new resin has the same or better electrical and physical ratings that the resin currently in use and there should be no noticeable visual differences between either resin. Molex may use either resin in future production. Samples are available upon request.
- PPAP and samples available upon request.

Additional Information :

CFD: **Supplier Change Resins**

(Describes a change in Resins/Metals)

Before

- Glass Fiber and Flame Retardants raw materials tight supply/shortage at North America is impacted to current 899920227 Resin supply.
- Due to these supply constraints, Celanese issued an FM letter for 899920227 ([Thermx CG933-BK010](#)) on 17th Feb 2022 and the next supply is unconfirm.
- Due to these supply constraints, Molex identified an internal shortage of resin supply which would create a challenge to fulfill all orders. Therefore, an alternative sourcing has been identified for the product families listed above.

After

- The alternative supplier operates under a certified quality management system and has passed Molex QSA Audit.
- Molex PD conducted comprehensive equivalency analysis comparing properties of resins between the original supplier and the alternative supplier. This is being followed by Molex internal qualification testing which shall ensure that finished products meet relevant product specifications before delivery.
- No different on color and refer before & after photo as reference. There is no other expected change regarding form, fit, & function.
