TE Connectivity

Product Change Notification: P-25-027462 **PCN Date:** 10-JAN-25

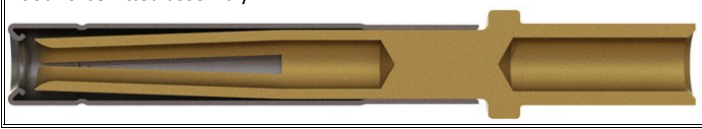

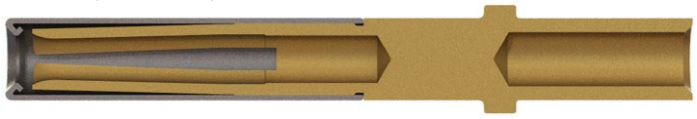

Customer: Heilind Electronics Inc(0002135900) **Location:** WORLDWIDE **Agreement:** Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
Hood assembly change

Description of Changes

Please note that we are changing the hood assembly on contacts in the attached references. The contacts are currently fitted with hood-force assembly. We have decided to change this type of assembly to a hood-crimped assembly, as is the case with the majority of our contacts, in order to standardise our assemblies. This change in assembly will not result in any reduction in performance, as the insertion and extraction forces are similar, or even in electrical performance. The plating thicknesses remain unchanged between the two configurations. This change has been approved by ASD Cert, as these contacts are EN3155 certified.

Hood force-fitted assembly	Hood crimped assembly
	

Reason for Changes:	
Product improvement.	
Estimated Dates:	
Last Order Date (Obsolete Parts Only):	**First Date To Ship** (Changed Parts Only):
	13-JAN-2025
Last Ship Date (Obsolete Parts Only):	**Last Date for Mixed Shipments:** (Changed Parts Only):
	30-APR-2025
