TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
MTC Solder Connectors

Description of Changes
TE Connectivity is removing the zone anneal process from the manufacturing flow for the contacts used in our connectors. Extensive and rigorous testing was performed to confirm that the removal of this process does not impact the form, fit, or function of the contacts in any way. This change is intended to streamline production and improve process efficiency, with no impact to the part design. This change notification applies to the contacts used in the following part numbers.

Reason for Changes:	
Product improvement.We hereby inform you about the removal of the zone anneal process from the manufacturing flow for the contacts used in our connectors. This change is driven by process optimization initiatives intended to improve efficiency and reduce variability in production. Extensive internal evaluations and rigorous testing were performed in accordance with TE specifications and industry standards, confirming that eliminating this process does not impact the quality, reliability, or form-fit-function of the affected products. A full internal review and validation were completed prior to approving this change.
