TE Connectivity

Product Change Notification: P-25-029390

PCN Date: 08-DEC-25

Customer: Heilind Electronics Inc(0002135900)

Location: WORLDWIDE

Agreement: Agreement Unknown

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
Change in marking process, from inkjet to laser for Evreux products

Description of Changes
We would like to inform you of a change that will take effect from January 5, 2026, regarding our marking process. Due to a shortage in the supply of our inks and our desire to improve the durability and quality of our markings, we are replacing the inkjet marking process with laser marking. Our ink stocks will last until February 2026, ensuring continuity of supply. After this period, laser marking will become our unique and definitive process for all parts concerned. The laser marking process is widely used and has sufficient capacity at our production site. The durability of laser marking has been validated by all the tests required by current standards, which have confirmed its robustness and compliance with applicable requirements. A communication will be sent to you via your usual contractual forms, where applicable.

Ink marking	Laser marking
	

Reason for Changes:	
Product improvement.Pictures show the difference between the current marking and the future marking.
