Product Description: (Text limited to 120 characters)
M8/M12 Contact Carriers & Shells

General Description of Changes
Addendum to PCN-26-278170. RoHS exemption 6c (lead as an alloying element in copper at concentrations of up to 4% by weight) will now expire uniformly on 30 June 2027 for most electrical and electronic equipment. This decision by the European Commission provides clarity for the industry, making the switch to lead-free alternatives mandatory from mid-2027. All the products mentioned are being converted to lead-free versions, which comply with the required guidelines without exception.

Reason for Changes:
Dear Customer, as part of our ongoing commitment to process excellence and, more importantly, to improve the environmental conditions of our products, we are pleased to inform you that the products in question are being switched to a completely lead-free variant. Important, with the change there are no differences in terms of fit, form and function. If you have any queries, contact your designated contact at TE withing 14 business days after receipt this PCN.
