Subject: Proactive Notice – Temporary Supply Impact on Select GIGAVAC Relay and Contactor Products

Dear Valued Customer –

We are reaching out proactively to make you aware of a temporary raw material supply constraint that may affect the delivery of a small number of GIGAVAC part numbers over the coming weeks. We value the transparency of our partnership and want to ensure you have the information you need to plan accordingly.

One of Sensata's raw material suppliers has communicated longer-than-expected lead times for a few components, which is creating a temporary risk to production and to on-time delivery of orders for the affected part numbers.

Brand	Affected PNs
Gigavac	GV221BAX
Gigavac	GV222CAC
Gigavac	GVLL144-013
Gigavac	GX110BEB
Gigavac	GX110CEB

Sensata is actively working with our supplier to expedite material shipments and confirm firm delivery commitments, and is working to reconfirm order-level ship dates as soon as new commitments are secured. We are also committing to proactive follow-up communication as more definitive timing becomes available.

If you have open orders for the part numbers listed above, your Sensata account manager or Customer Service representative can provide the latest order-specific status. We recognize that any uncertainty with delivery timing can affect your own planning, and we are committed to keeping you informed.

We appreciate your partnership and will continue to communicate openly as the situation develops.
