General Product Description:

Raw Material Change impacting -3,-125 and CES Molded Parts

Description of Changes

This notice informs you that due to Mitsubishi Chemical Group (MCG) announcing that the manufacturing of products from their plant will be discontinued in stages starting in March 2026 and fully terminated by the end of March 2027. TE connectivity is enforced to change a cross-linking additive within -3, -125 and CES molded parts with a drop-in, like-for-like alternative (same CAS Number). Based on internal testing, there will be no impact on the fit, form, or function of the finished product.

Other attachments:[Communication Letter](#)**Reason for Changes:**

Product improvement. The replacement additive will be phased into production as relevant approvals are obtained. As a result, there will be a transition period during which shipments may contain products manufactured using either the existing additive or the new additive, TE will maintain full traceability to be able to identify the additive used in the supplied customer product. If you have any questions or require further information regarding this change, please contact your TE Connectivity representative.
