

Product Change Notification

Date Issued :	September 21, 2026	PCN Number :	518862
Reason for Change :	Equipment Transfer, Production Transfer or Rearrangement		
PCN Subcategory:	EMR - Equipment/Tool Transfer		
Description of Change :	This notification is to inform you about an Addendum PCN initiated for original PCN 518300 equipment transfer that have been used to manufacture impacted part(s). Equipment have been moved to different site/ location/ premises along with some set of tooling is being added to meet the current and future demands of this product referenced below. No changes will be made to product as part of this change.		
Reason for Short Notice :	Update Previously Issued Change Notice		
Assessment of Change :	First Article Inspection		
Planned Implementation Date :	April 30, 2027		
Customer Sample Availability Date:	November 27, 2026		
Last date to request Samples by Customer : September 30, 2026			
Please note if Samples are not requested as per Customer Samples Request date, it may take additional 4-6 weeks to arrange Samples.			
Traceability Code Markings / Date :	Product made after planned implementation date can contain the change		

Addendum PCN 518862 issued for original PCN 518300

- Due to some technical issue, pervious PCN 518300 could not be communicated to all impacted customers. Therefore, **PCN 518862** is being issued as an Addendum PCN to ensure the change is formally communicated to all impacted customers.
- We will continue to address and fulfill any customer requirements associated with PCN 518300, including the submission of applicable documentation, qualification data, and samples, as required.
- There are no changes to the scope, implementation plan, or timelines previously communicated under PCN 518300. PCN 518862 has been created solely to rectify the communication gap resulting from the system issue and to ensure complete customer notification.

PCN OVERVIEW

- Molex decided to transfer the molds for 062 & 093 Dia HSG series which is currently running at Molex Singapore.
- In this initiative, Molex India will transfer molds for impacted FG parts as per the attached list under Engineering series # 3191, 1625, 1490, 1619, 2163 & 1396 series (*Refer Slide 3 for FG part number details*).
- In addition to this transfer, we are also adding capacity expansion for below mentioned part numbers series to meet the recent customer demand.

Capacity expansion-PN list

Material	Series
3091041	1490
3091042	1490
3092041	1490
3092042	1490
3091011	1619

PCN DETAILS

- There will be change in sourcing location for raw materials and packaging materials within the same sources.
- The entire process is expected to get completed by Feb-2027. During this period, these housing part number under this scope may be shipped to customers either from the current manufacturing location in Molex Singapore or the new location in Molex India, Bangalore.
- Molex will manage the transition schedule appropriately to ensure quality expectations are met while maintaining ongoing deliveries.
- Packaging will clearly denote the manufacturing location of finished goods. There won't be any changes in DU/MLQ.
- Product Impact : No change in fit, form & function.
