TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
4POS MQS REC

Description of Changes
Due to a tooling capacity constraint at the TE-Bragan a Plant affecting PNs 936120-1 and 936123-1, it has become necessary to qualify the TE-Genesis Plant, Korea as analternative manufacturing source (Second Source) for these products. As a supply risk mitigation action to ensure business continuity and maintain customer demandfulfi llment, a production capacity assessment was conducted with the Korea plant, which confirmed its capability to support the required demand for both part numbers.

Reason for Changes:	
This change is intended to add the TE-Genesis Plant, Korea as an approved manufacturing location for PNs 936120-1 and 936123-1, enabling temporary and/or long-termsupply support while corrective actions are implemented to resolve the current capacity constraint at the Bragan?a facility. The change does not affect the product's form, fit,or function and is being introduced solely to increase supply chain flexibility and ensure uninterrupted customer supply.
